Human Resource Manager
Global Software Architects(GSA)
Dhaka

Dear Human Resource Manager,

I am writing to apply for the Software Engineer (.NET + Angular) position at Global Software Architects (GSA) as advertised on Bdjobs.com. I recently completed my B.Sc. in Computer Science and Engineering and am eager to begin my professional career in full-stack software development.

Through my academic projects and practical work, I have developed strong skills in Angular (TypeScript), C#.NET, .NET Web API, and SQL Server, along with hands-on experience in database functions, views, and stored procedures. I am confident that my technical knowledge, problem-solving ability, and dedication to continuous learning will allow me to contribute effectively to your development team.

I have attached my detailed CV in PDF format along with my salary expectations for your review, and I would appreciate the opportunity to discuss my application further in an interview.

Thank you for your time and consideration.

Kind regards

Basudeb Kundu
